

My privacy is very important to me and this is the reason that I am writing this letter. I am asking that the FCC not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has improved my time at home and has been effective in limiting the number of unwanted phone calls that I get from telemarketers. I oppose any action that would result in my privacy being reinvaded by numerous unwanted phone calls.

Sincerely,
Emily K Pulley
